

TECH PACK ADD-ON

Goatskin Leather Spec Sheet for Brands

Fill this in once per style and send it with your tech pack. Every factory then quotes the same leather, and you can check the sample and bulk against it.

1. Product and order

Brand / style name	
Product	☐ Jacket ☐ Gloves ☐ Wallet / card holder ☐ Bag ☐ Other
Quantity per colour	
Target delivery date	

2. Leather spec

Field	Your choice
Hide	☐ Goatskin ☐ Kidskin ☐ Goat suede ☐ Goat nubuck

Notes for the tannery	

3. Thickness starting points

Fine and dress gloves	0.5–0.7 mm
Fashion jackets	0.7–0.9 mm
Wallets and card holders	0.8–1.0 mm
Work gloves, flight jackets	0.9–1.2 mm
Soft bags	1.0–1.2 mm

Scale 0.4 to 1.3 mm. A starting point only; confirm with a swatch from the tannery.

4. Swatch and sample check

- 1 Grain:** pebbled goat grain is visible where you asked for it, not hidden by a heavy finish.
- 2 Thickness:** measure 3 to 5 points with a thickness gauge; all within your range.
- 3 Colour:** matches your swatch in daylight; panels from different skins match each other.
- 4 Hand feel:** soft and supple, no cracking when you fold the leather sharply.
- 5 Rub test:** rub with a damp white cloth; little or no colour transfer.
- 6 Smell:** normal leather smell, no strong sour or chemical odour.
- 7 Joins:** on large panels, any joins sit where the design allows them.
- 8 Counter sample:** one signed sample kept by you and one by the factory.

5. Sign-off
