Nubuck Care Card

Keep your nubuck shoes, boots, bags and jackets soft and clean for years.

DO

- Brush gently after every few wears, in one direction.
- Use a nubuck eraser on dry marks and scuffs.
- Spray with a nubuck protector before first use.
- Cover fresh oil with cornstarch and leave it overnight.
- Dry slowly at room temperature, stuffed with paper.
- Store in a breathable bag, not plastic.

DON'T

- Use shoe polish, wax or regular leather cream.
- Dry near a heater, radiator, hair dryer or in sun.
- Put it in the washing machine.
- Wet just one spot (it leaves a ring).
- Rub a fresh stain. Blot it instead.
- Use bleach, ammonia or saddle soap.

Quick stain fixes

Oil or grease	Blot, cornstarch overnight, brush off
Water rings	Dampen the whole panel evenly, dry slowly, brush
Salt lines	Brush, then dab vinegar + water (1:1) on the whole panel
Mud	Let it dry completely, then brush it off
Scuffs	Nubuck eraser, then brush to lift the nap
Ink	Eraser very gently, then ask a professional

How often?

- Brush: after every few wears
- Protector spray: before first use, then every few weeks in wet seasons
- Deep clean: only when needed, with a nubuck cleaner
